

Workers Memorial Day

28 April

Forget me not

Many thousands of workers die every year from accidents, occupational diseases and work related driving.

Workplace injuries, ill health and deaths are preventable, Unite the Union demands: Proper enforcement and adequate funding for the HSE. A legal duty on directors to be more accountable.

Employers must put the health and safety of their workers first. We led the fight on corporate manslaughter and will fight on.

Remember the dead - Fight for the living
